

20 YEAR TERM LIFE INSURANCE

Will your family have financial security if you die unexpectedly?

Will they have enough for your final expenses?

Life Insurance is a smart and simple way to protect your loved ones. Allstate Life Insurance is being offered on a Contingent Guaranteed Issue basis. This means that individuals who normally wouldn't qualify for life insurance due to health problems, may qualify now.

Here's how it works...

You have the choice between a face value death benefit of \$25,000 or \$50,000. The life rate chart helps you quickly determine your premium rate per your age at the time the policy is issued. Due to age restrictions associated with the guaranteed issue plan, the face value of the benefit reduces annually once you reach a certain age.
